Attention: Ted Peters

Gentlemen:

Re: Open Dump Located 0.3 of a Mile East
of Cline Avenue and Immediately South
of the Grand Calumet River in Gary

The above-referenced site was inspected by representatives of this office on December 28, 1976. At that time this site was found to be in violation of the Environmental Management Act, 13-7, Chapter 4, Section 1(a), (c), and (d); the Refuse Disposal Act, 19-2-1, Section 31; Regulation SPC-18, Chapter V, Section 1; and our approval letter dated March 23, 1976. Our approval letter dated March 23, 1976, gave you permission to dump only foundry sand from Blaw Knox Foundry. It was observed on December 28, 1976, that wood, plasterboard, 55-gallon barrels, paper, plastic, and other miscellaneous refuse had been dumped at this site.

All dumping of material other than foundry sand from Blaw Knox Foundry must cease immediately and all refuse on site must be removed to a State approved sanitary landfill.

Failure to comply with this order within 30 days of the date of this letter will necessitate enforcement action. If you have any questions please contact Mr. Bruce Palin or Mr. George Dayhuff of our Solid Waste Management Section at AC 317/633-6400.

Very truly yours,

Roland P. Dove, Director
Division of Sanitary Engineering
